**COALITION AGAINST  
PREDICTIVE POLICING  
PITTSBURGH**

**VIRTUAL  
TEACH-IN**

COVERING PREDICTIVE POLICING & NEXT STEPS TO AVOID  
COVERT, HARMFUL TECHNOLOGY PROJECTS IN PITTSBURGH

JULY 16, 2020  
7:00 - 8:30 PM

FACEBOOK EVENT: [HTTPS://TINYURL.COM/CAPPTTEACHIN](https://tinyurl.com/cappteachin)  
ZOOM LINK: [HTTPS://TINYURL.COM/CAPPZOOM](https://tinyurl.com/cappzoom)

**CAPP PGH**

The image is a flyer for a virtual teach-in event. It has a black background with white and red text. At the top, it says 'COALITION AGAINST PREDICTIVE POLICING PITTSBURGH'. Below that, 'VIRTUAL TEACH-IN' is written in large, bold letters. Underneath, it says 'COVERING PREDICTIVE POLICING & NEXT STEPS TO AVOID COVERT, HARMFUL TECHNOLOGY PROJECTS IN PITTSBURGH'. There is a photograph of a hand pointing at a map. The date and time are 'JULY 16, 2020 7:00 - 8:30 PM'. At the bottom, it provides a Facebook event link and a Zoom link. A QR code is in the bottom left corner, and 'CAPP PGH' is in the bottom right corner.

**Bonnie Fan (they them)** is a monkey dancing in the halls of CMU and **T4S community liaison**. They channel institutional complicity into work with PPT, Coalition Against Predictive Policing Pittsburgh, and coveillance

**micah epstein (they/them)** is a designer, storyteller, systems meddler and **Master's in City Planning student in Housing, Community, and Economic Development**. They've designed for the ACLU of Washington, MIT Media Lab, the coveillance collective, and many others.

**Rahul Amruthapuri** holds a **Doctor of Public Health from the University of Pittsburgh** and co-authored "Wait, Who's Driving This Thing?" a lit review & position paper on driverless vehicles

**Ben Eisner** is a **Ph.D. student in the Robotics Institute at Carnegie Mellon University**, working on autonomous household robotics. He researches urban mobility at Tech4Society

**emily howe** is a **researcher and educator in the sociopolitics of education**. emily is passionate about collective work redressing past social harms, working with PPT, City of Bridges Community Land Trust, and Lawrenceville United.

TRANSIT FOR PEOPLE  
NOT FOR PROFITS

Pittsburghers For Public Transit

Bus Lines Are Life Lines

**Laura Chu Wiens** is the **Executive Director of PPT**

and believes in the collective power of people to transform their communities.

**Crystal Jennings** is a housing justice advocate, working with the **City of Bridges Community Land Trust as the Stewardship & Community Engagement Manager**. Among many efforts, she worked tirelessly to mobilize displaced residents with the Penn Plaza Support and Action Coalition.

**Paul O'Hanlon** has been a longtime advocate for disability issues and low income housing and is a **co-chair of the City-County Task Force on Disabilities**.

**Teaira Collins** is a PPT Member, and **Leader of the 93-Hazelwood Campaign**, fighting for access for herself, her children, and her neighbors

# Core infrastructure and access needs the city hasn't been prioritizing

**Paul O'Hanlon** has been a longtime advocate for disability issues and low income housing and is a **co-chair of the City-County Task Force on Disabilities.**

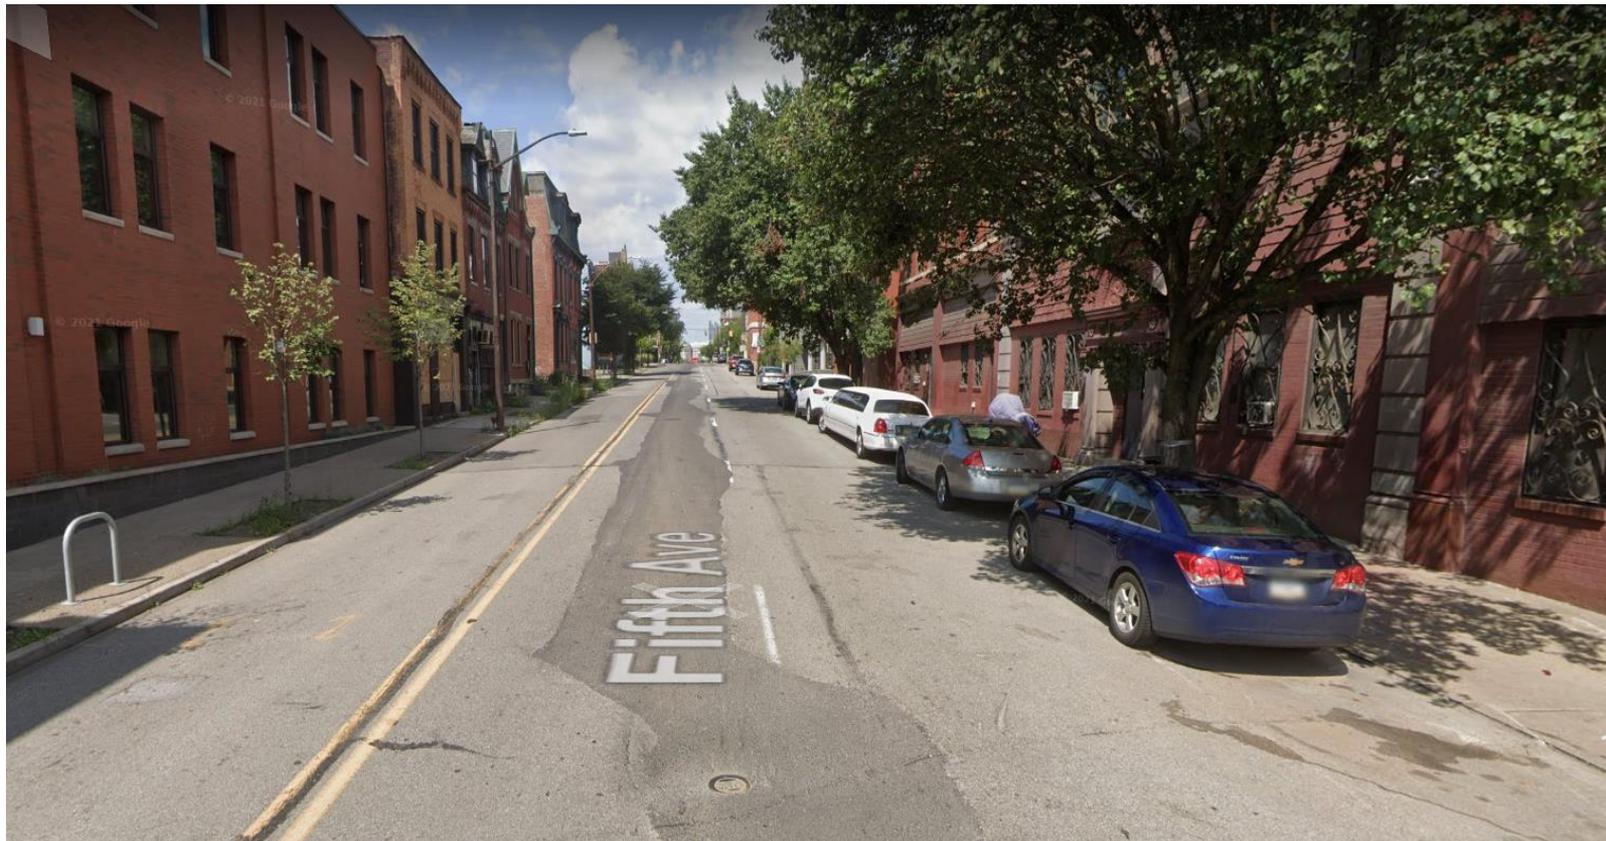

**Rahul Amruthapuri** holds a **Doctor of Public Health from the University of Pittsburgh** and co-authored “Wait, Who’s Driving This Thing?” a lit review & position paper on driverless vehicles

The current bus rapid transit (BRT) plan puts all the parking on the wrong side for people with disabilities.

Oakland has parking on the right side

Uptown currently has parking on the right side

Disability-unfriendly street design

We have  
some  
unavoidable  
infrastructure  
problems

---

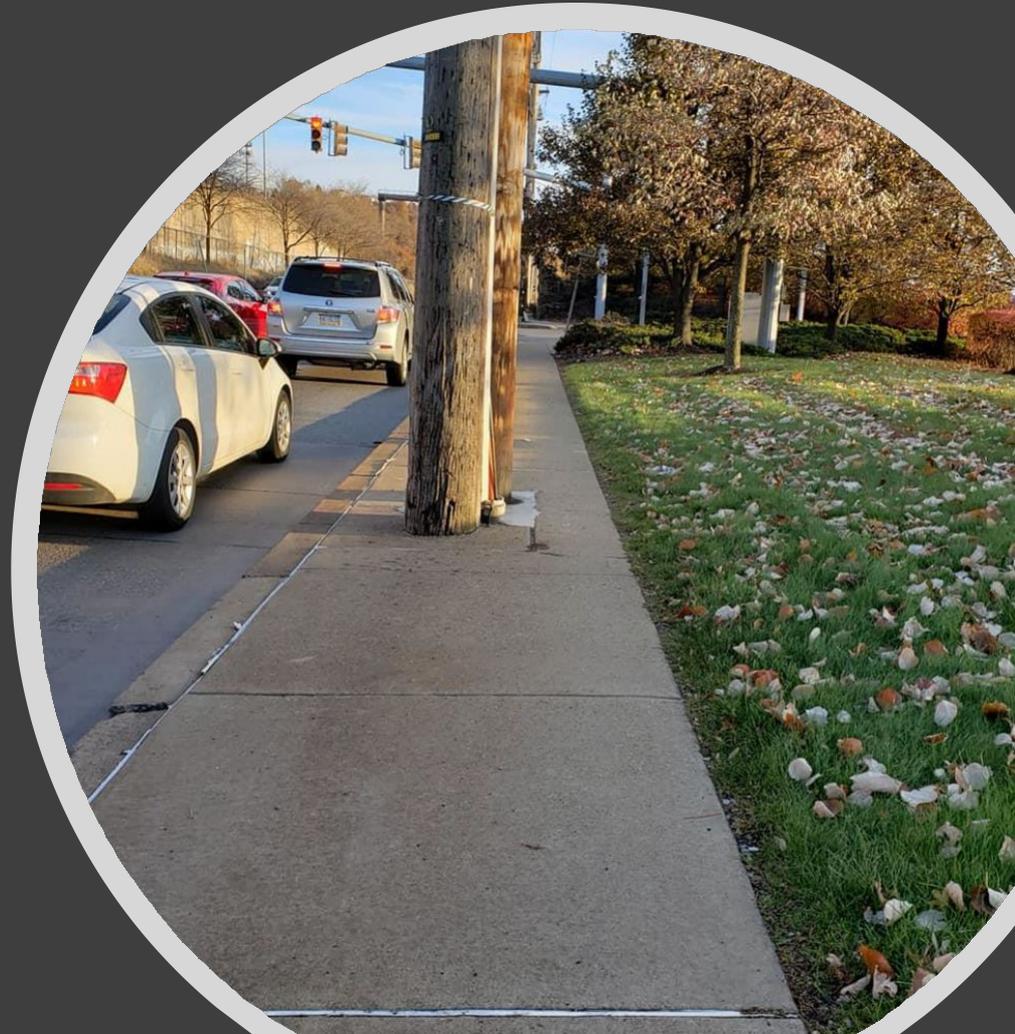

Street clearing  
of snow is  
done with  
extreme  
indifference to  
access

---

Many of our  
barriers are  
avoidable ...  
Ignorance or  
indifference?

Obstacle  
after  
obstacle

Sidewalks are  
used for road  
signs or  
storage

---

Pedestrian  
right-of-way  
or  
privatized  
public  
space?

---

Sidewalk  
or  
parking lot?

---

Pittsburgh lacks the infrastructure to manage the obstacles it is permitting

“Between 2017 and 2022, the proportion of capital budget allocated to **ramp and public sidewalks** ranged **between 0.21 percent and 1.45 percent.**”

quote  
from  
report

Data is sourced from the Western Pennsylvania Regional Data Center and represents 311 calls between 4/20/2015 and 12/6/2021

Average number of sidewalk related 311 calls/sidewalk mile/year by neighborhood

- 0 - 1
- 1 - 2
- 2 - 3
- 3 - 4.5

report

### **1 mile trip:**

Spin Scooter:	<b>\$4.82</b>
Healthy Ride:	<b>\$0.63</b>
Transit ride:	<b>\$2.50</b>
Scoobi:	<b>\$3.68</b>

# Mon-Oakland Connector: Private Shuttles vs. Real Resident Needs

**Teaira Collins** is a PPT Member, and **Leader of the 93-Hazelwood Campaign**, fighting for access for herself, her children, and her neighbors

“This shuttle primarily benefited the universities... and siphoned \$24M in public funding...

Most importantly, this project received capital funding while **important sidewalk infrastructure repairs lay unfunded and neglected.**

In addition, important **public transit options could have provided better, cheaper, and more accessible transportation access** to the area...  
The 93 provided access to grocery stores when the neighborhood has none.”

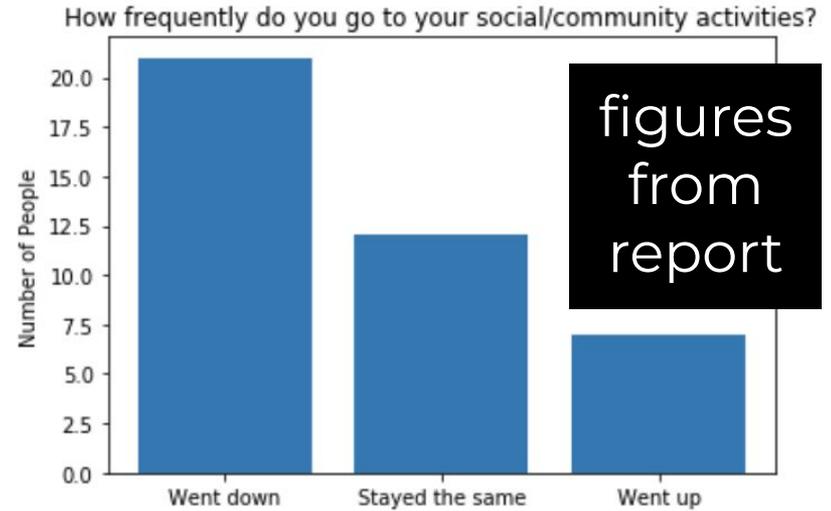

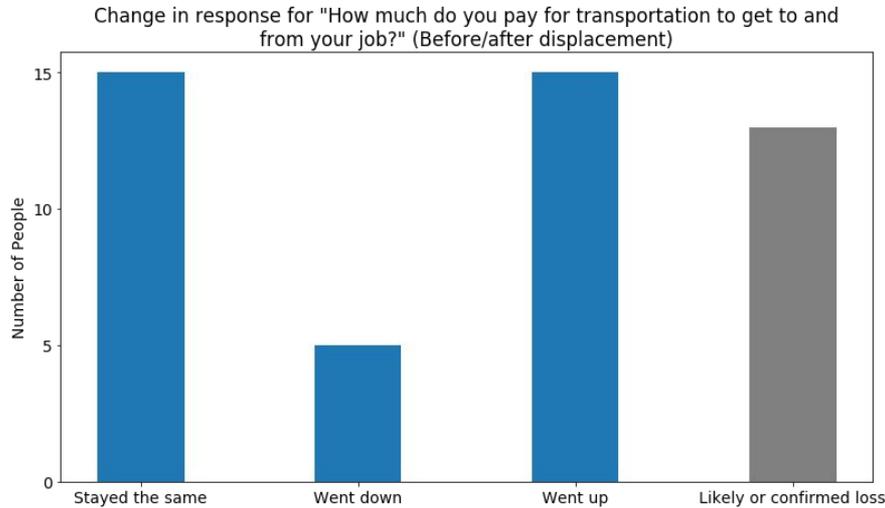

quote  
from  
report

# Gentrification and displacement to transit poor areas

Understanding the crucial connection between housing justice to mobility justice

**Crystal Jennings** is a housing justice advocate, working with the **City of Bridges Community Land Trust** as the **Stewardship & Community Engagement Manager**. Among many efforts, she worked tirelessly to mobilize displaced residents with the Penn Plaza Support and Action Coalition.

“This meant that not only did displaced residents **face higher costs of access to economic opportunities and essential trips** like health and groceries, **they were also forced to forgo social trips**, increasingly isolated from friends and community.”

quote from report

# Calling for a shift: A city that prioritizes people over profit

What would mobility for all look like compared to now?  
How can we shift priorities of the city to the needs of its residents?

**emily howe** is a **researcher and educator in the sociopolitics of education.**

emily is passionate about collective work redressing past social harms, working with PPT, City of Bridges Community Land Trust, and Lawrenceville United.

**micah (they/them)** is a designer, storyteller, systems meddler and **Master's in City Planning student in Housing, Community, and Economic Development.** They've designed for the ACLU of Washington, MIT Media Lab, the coveillance collective, and many others.

# PAAC EQUITY INDEX

- 2016 & 2018 data (does not account for Covid-19)
- Broad social index including disabilities, single mothers, and vehicle access
- High-need neighborhoods include (yellow):
  - Bedford Dwellings
  - Larimer
  - Glen Hazel
  - California-Kirkbride
  - Allentown

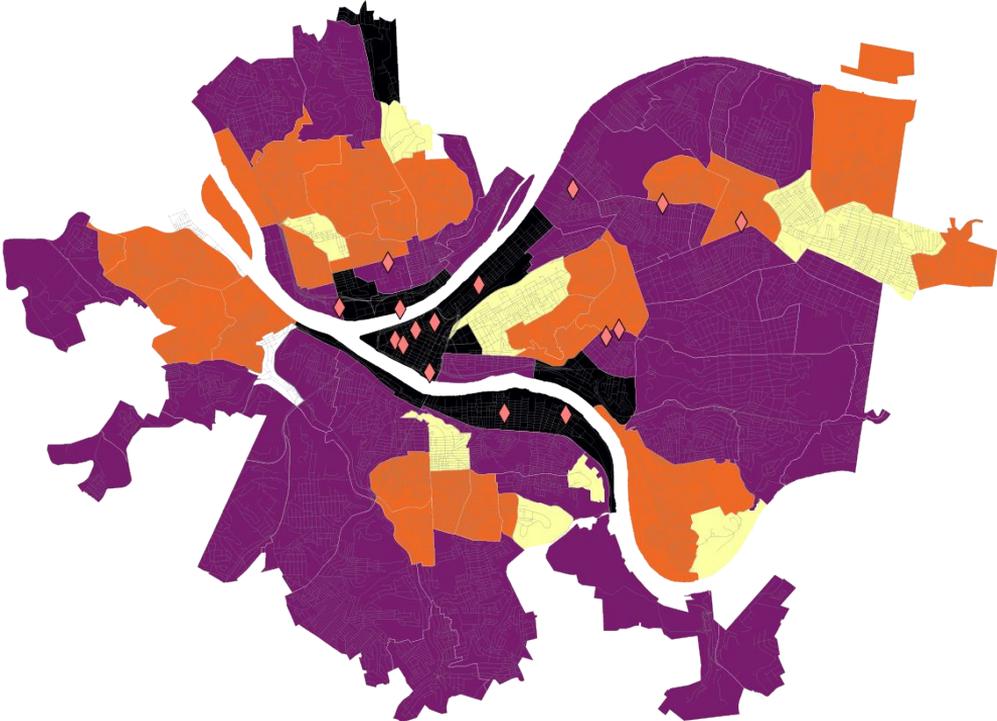

Mobility Need as Defined by PAAC Equity Index by Neighborhood

Low need Moderate need High need Very high need

# MOVEPGH MOBILITY HUB PLACEMENT

- :(
- Poor open data practices

Mobility Need as Defined by PAAC Equity Index by Neighborhood

Low need Moderate need High need Very high need  
Move PGH Mobility Hub

figure  
from  
report

# MOBILITY HUBS & TRANSIT

- “These services are additional options where public transportation isn’t as widely available as needed.”

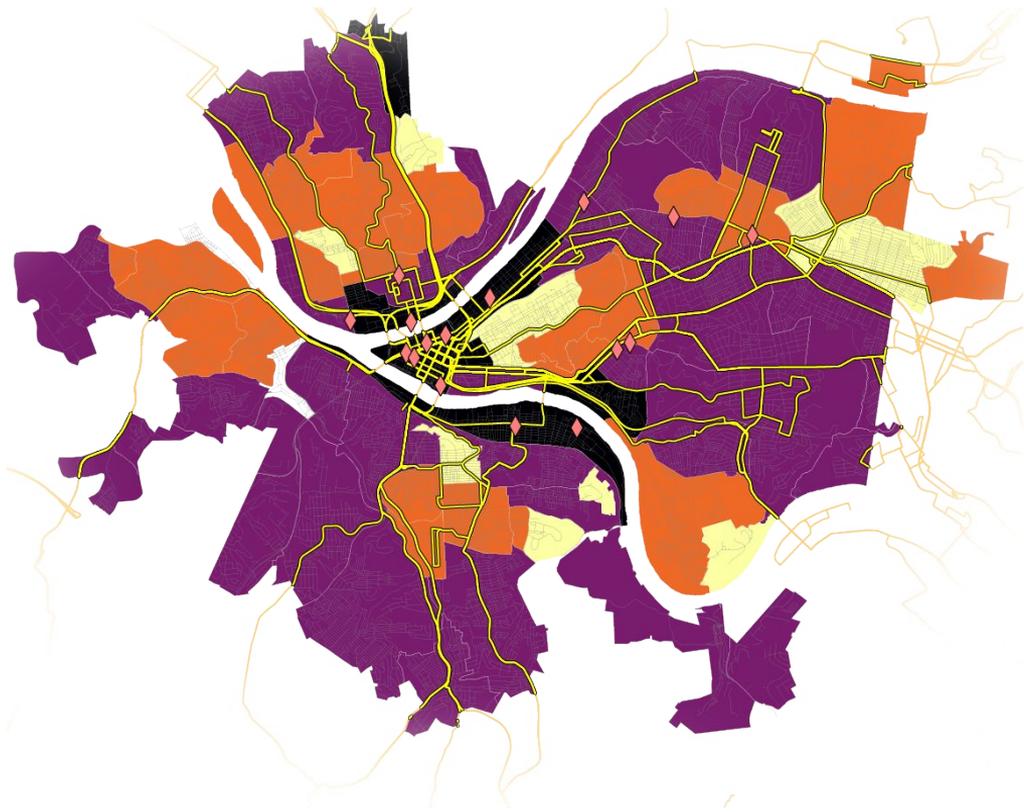

vs.

- Last-mile solution near existing transit density

 Move PGH Mobility Hub  
 Rapid, Express, and Key Corridor Transit Routes

Mobility Need as Defined by PAAC Equity Index by Neighborhood

Low need Moderate need High need Very high need

Rapid, Express, and Key Corridor Transit Routes

## MOBILITY IS A HUMAN RIGHT!

- Transit is the primary source of mobility for many
- Mobility hubs *may* be a last-mile solution - but for whom?
