

Protect our transit service from state budget cuts!

The state's proposed budget for transit funding is hundreds of millions of dollars short of what we need. If passed, PRT would need to slash our already austere service and raise fares, hurting those who need transit the most.

Under the proposed cuts:

- ❌ No transit would run after **11 PM**
- ❌ Service would be cut **40%**
- ❌ **95** bus and T routes would be shrunk or eliminated
- ❌ Fares would increase by 9% to **\$3.00**
- ❌ Paratransit service would be slashed a staggering **62%**
- ❌ Paratransit fares would increase by **24%**
- ❌ Thousands of disabled people would lose reliable access to doctors, jobs, groceries, and community

Our rider-led coalition has a better idea: pass new, protected funding sources to expand transit access across the state. This is a statewide problem, and it needs a statewide solution!

❌ ACT NOW ❌

Contact your state elected officials to demand the state pass expanded, equitable transit funding for all, from big cities to small towns!

Then, **leave a comment with PRT** online, over the phone, or in person to tell them to save our service!
